

## Detailed Table of Contents

### Foreword

### Chapter 1: Introduction and Overview

## PART I: REPRODUCTIVE AND SEXUAL HEALTH: MEDICAL, ETHICAL AND LEGAL PRINCIPLES

### Chapter 2: Reproductive and sexual health

#### A. Overview

#### B. Reproductive health

1. The concept
2. A definition
3. A global concern

#### C. Sexual health

#### D. Reproductive health - a woman's concern

1. Gender differentials in health
2. The unfair burden on women in reproductive health
3. Women's health is more than reproductive health

#### E. Men have reproductive health needs too

#### F. Determinants of reproductive health

#### G. Reproductive health indicators

#### H. A global overview of reproductive health

1. Safe motherhood
  - a. Availability of essential basic and comprehensive health care
  - b. Deliveries by skilled birth attendants
  - c. Access of pregnant women to prenatal care
  - d. Maternal mortality
  - e. Perinatal mortality
  - f. Anaemia
2. Fertility by choice
  - a. Total fertility rate
  - b. Contraceptive prevalence
3. Abortion
4. Sexually-transmitted infections
  - a. Not including HIV
  - b. HIV infection
5. Female genital cutting (circumcision/ mutilation)
6. Infertility
7. Cervical cancer

#### I. Progress and challenges

#### References

## **Chapter 3: Health care systems and reproductive health**

### A. Overview

### B. The health care system and the right to health

### C. Special considerations in reproductive health care

1. Dealing with healthy people
2. Dealing with more than one “client”
3. Dealing mostly with women
4. Dealing with society

### D. Shortcomings in the performance of the reproductive health care system

1. Imbalance in the health care system
  - a. Health facilities
  - b. Human resources
  - c. Hospital beds
2. Inefficiency in the health care system
3. Inadequate responsiveness to women’s expectations and perspectives
  - a. A health system that cares
  - b. Women as ends and not means
  - c. A fragmentary response to a totality of needs

### E. Mainstreaming the gender perspective in the health care system

### F. Challenges in the implementation of reproductive health care

### G. Health care systems and the law

1. Legal principles governing health care delivery
2. Obstructive laws
3. The health profession and human rights law
  - a. Literacy in human rights law
  - b. Compliance with human rights law
  - c. Advocacy for human rights

### H. The question of resources

1. Overall resources
2. Fair allocation of resources
3. Priorities in the allocation of resources
4. Reproductive health is special
5. The cost of not providing reproductive health services

### I. The commitment

### References

## **Chapter 4: Ethics**

- A. Overview
- B. The origins of bioethics
- D. Bioethical orientations
  - 1. Duty-based bioethics
  - 2. Consequentialist or utilitarian bioethics
  - 3. Feminist bioethics
  - 4. Other bioethical orientations
- E. Principles of bioethics
  - 1. Respect for persons
  - 2. Beneficence
  - 3. Non-Maleficence
  - 4. Justice
- F. Levels of bioethical analysis
  - 1. The microethical level
  - 2. The macroethical level
  - 3. The mesoethical level
  - 4. The megaethical level
- G. Reproductive and sexual health ethics
- H. Research ethics
- I. Ethics and the law
- J. Ethics and human rights
- K. Ethics review
- References

## **Chapter 5: Legal Origins and Principles**

- Part I: Role and origin of the law
  - A. Law and reproductive health policy
  - B. The role of law and of lawyers
  - C. Legal reform for reproductive health
  - D. The evolution of reproductive health law
    - i. From morality to democracy
    - ii. From crime and punishment to health and welfare
    - iii. From health and welfare to human rights
- Part II: Legal principles governing reproductive health care
  - A. Overview
  - B. Decision-making
    - 1. Informed decision-making
    - 2. Free decision-making
    - 3. The role of third parties
      - a. Partner authorization
      - b. Parental consent
      - c. Substitute decision-making
  - C. Regulation of information
    - 1. Privacy

- 2. Confidentiality
  - a. Unauthorized disclosures
  - b. Disclosure to patients
  - c. Authorized disclosures
  - d. Related concerns
    - i. Third party interests
    - ii. Third party peril
- D. Competent delivery of services and the law of negligence
  - 1. Relation between legal and professional standards
  - 2. Standards for determining professional competence
  - 3. Delegated authority
  - 4. Evidence for determining professional competency
  - 5. Sexual misconduct
- E. Conscientious objection
- F. Safety and efficacy of products

### Part III: Criminal Law

#### References

## **Chapter 6: Human Rights Principles**

- A. Overview
- B. Sources and nature of human rights
- C. Rights relating to reproductive and sexual health
  - 1. Evolution of reproductive rights
  - 2. Duties to implement reproductive rights
  - 3. Restrictions and limitations of rights
- D. The application of human rights to reproductive and sexual health
  - 1. Rights relating to life, survival, security and sexuality
    - a. The right to life and survival
    - b. The right to liberty and security of the person
    - c. The right to be free from inhuman and degrading treatment
  - 2. Rights relating to reproductive self-determination and free choice of maternity
    - a. The right to decide the number and spacing of one's children and the right to private and family life
    - b. The right to marry and to found a family
    - c. The right to maternity protection
    - d. The right to maternity protection during employment
  - 3. Rights relating to health and the benefits of scientific progress
    - a. The right to the highest attainable standard of health
      - 1. Available resources and their fair allocation
      - 2. Health sector reform
    - b. The right to the benefits of scientific progress
  - 4. Rights to non-discrimination and due respect for difference
    - a. Sex and gender
    - b. Marital status
    - c. Age

- d. Race and ethnicity
- e. Health status/disability
- f. Sexual orientation
- 5. Rights relating to information, education, and decision making
  - a. The right to receive and to impart information
  - b. The right to education
  - c. The right to freedom of thought, conscience, and religion

E. Progress and challenges

References

## **Chapter 7: Implementation of Legal and Human Rights Principles**

A. Overview

B. Human rights needs assessment

- 1. Clinical Care
- 2. Health Systems
- 3. Underlying Conditions, including social, economic and legal conditions

C. Development of legal claims

- 1. Identify the wrong, its causes and the wrongdoer
- 2. Document the alleged wrongs
- 3. Determine which laws are implicated
- 4. Identify standards by which to determine whether and how laws are violated
- 5. Assess how to pursue effective remedies
- 6. Determine which agencies or individuals are bound to provide remedies

D. Advancement of legal claims

- 1. National procedures
  - a. Implementation of legal and human rights principles
  - b. Courts of law
  - c. Criminal law approaches
  - d. Civil (non-criminal) law approaches
  - e. Alternative dispute resolution
  - f. Regulatory and disciplinary approaches
  - g. US medical malpractice litigation – the international exception
  - h. Legislative approaches
  - i. Human rights commissions
  - j. Ombudsmen
- 2. Regional and international approaches
  - a. Reporting procedures
  - b. Complaint procedures
  - c. Inquiry and communications procedures

## **PART II: REPRODUCTIVE AND SEXUAL HEALTH: APPLICATION OF MEDICAL, ETHICAL AND LEGAL PRINCIPLES**

A. Overview

B. Case Studies: From Principle to Practice

1. Female genital cutting (circumcision/mutilation)

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

2. An adolescent girl seeking sexual and reproductive health care

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

3. Sexual assault and emergency contraception

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

4. Hymen reconstruction

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches

- a) Clinical duty
- b) Healthcare system obligations
- c) Social action for underlying conditions

References

5. A request for medically assisted reproduction

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

6. Involuntary female sterilization

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

7. Counselling and caring for an HIV positive woman

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects
- v. Human rights aspects
- vi. Approaches
  - a) Clinical duty
  - b) Healthcare system obligations
  - c) Social action for underlying conditions

References

8. HIV drug research and testing

- i. Background
- ii. Medical aspects
- iii. Ethical aspects
- iv. Legal aspects

- v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

9. Responding to a request for pregnancy termination

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

10. Prenatal and pre-implantation genetic diagnosis for risk of dysgenic inheritance

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

11. Sex selection abortion

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

12. Treating a woman with an incomplete abortion

- i. Background

- ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

### 13. Confidentiality and unsafe abortion

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

### 14. Domestic violence

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

### 15. A maternal death

- i. Background
  - ii. Medical aspects
  - iii. Ethical aspects
  - iv. Legal aspects
  - v. Human rights aspects
  - vi. Approaches
    - a) Clinical duty
    - b) Healthcare system obligations
    - c) Social action for underlying conditions
- References

### **PART III: REPRODUCTIVE AND SEXUAL HEALTH: DATA, BASIC DOCUMENTS AND SOURCES**

- 1a) Country Data on Selected Reproductive Health Indicators
- b) Female Genital Cutting (FGC): Estimated Prevalence
- c) Abortion Estimates
  - i) Global and Regional Annual Estimates of Incidence of and Mortality due to Unsafe Abortion, 1995-2000
  - ii) Measures of Induced Abortion and Hospitalization for Abortion Complications for Selected Latin American Countries
  - iii) Young Women Hospitalized for Abortion Complications
- 2) Ethical Principles for Medical Research Involving Human Subjects (World Medical Association Declaration of Helsinki, amended 2000)
- 3) Table of Human Rights Treaties and UN Conference Documents
- 4) Chart: Human Rights Relating to Reproductive and Sexual Health
- 5) States Parties to Human Rights Treaties
- 6) Human Rights Treaty Committees: General Recommendations/Comments
  - a) Committee on the Elimination of Discrimination against Women, General Recommendation 19: Violence against Women (1992)
  - b) Committee on the Elimination of Discrimination against Women, General Recommendation 24: Women and Health (1999)
  - c) Committee on Economic, Social and Cultural Rights, General Comment 14: The Right to the Highest Attainable Standard of Health (2000)
  - d) Human Rights Committee, General Comment 28: Equality of Rights between Men and Women (2000)
  - e) Committee on the Elimination of Racial Discrimination, General Recommendation 25: Gender Related Dimensions of Racial Discrimination (2000)
- 7) Summary of the International Guidelines on HIV/AIDS and Human Rights (1996)
- 8) Sample Application to Petition a Human Rights Treaty Body
- 9) Table of Legal Cases: National, Regional, and International Tribunals
- 10) Select Bibliography by Chapter
- 11) Annotated Listing of Relevant Websites
