Grands Défis Canada

2015 Summer Student Program

Gain meaningful, hands-on experience in the diverse, interdisciplinary field of **global health through Grand Challenges Canada's Summer Student program.**

Application information will be posted in early December 2014.

The Program

Each summer, Grand Challenges Canada welcomes passionate and driven students from a variety of disciplines to work as part of our team through the Summer Student Program.

Summer Students will work in and across the following areas within Grand Challenges Canada, based on their interests and experience:

- Targeted Challenges Programs ([Saving Lives at Birth](#), [Saving Brains](#), [Global Mental Health](#))
- [Stars in Global Health](#)
- Communications
- Legal
- Business/Operations
- Finance/Investments

Highlights

- Contribute to an innovative and well-known organization at the vanguard of global health
- Work in an interdisciplinary team in your area of interest, and gain valuable experience for your future
- Attend regular speaker events featuring prominent researchers, clinicians, investors, leaders and thinkers in the global health sphere
- Learn from our team through the Grand Challenges Canada mentorship program
- Develop your communication, analytic, and networking skills
