

### WRITING REQUIREMENT REQUEST FORM

The degree components of our Coursework Intensive LLM program includes a writing requirement. Students in this program must fulfill the writing requirement by taking a course requiring one or more written assignments of at least 3,500 words (combined). An exam cannot be used to meet the requirement. Students will take the course and complete the course requirements (including the writing assignments) in the usual manner. The only difference is that students will have an extended deadline of July 31 for submitting their final writing assignment. This extended deadline applies to courses in both the fall and spring terms.

Please note that the 3,500 word requirement is a minimum. If the course you chose requires a longer assignment or assignments totaling more words, those are the requirements that must be completed.

Students designating a course as their writing requirement must bring the form to their course instructor, which they will then submit to the Graduate Program Coordinator by the Add/Drop deadline of the relevant term.
